

# NK® High Yield Soybean Cost Share Offer

## Program Offer

Syngenta is committed to helping farmers Grow More Soybeans. Our Start Strong, Grow Strong, Yield Strong approach to soybean production is designed to help farmers understand the key production steps and products necessary to grow more soybeans. Syngenta has designed this NK® High Yield Soybean Cost Share Offer to support this approach.

## Offer Overview

- Grower must purchase (a) a minimum of 200 units of NK soybeans treated with Clariva™ Complete Beans or CruiserMaxx® Beans with Vibrance® seed treatments\* and (b) purchase matching acres of one eligible residual soybean herbicide (described below) to qualify for:
  - \$2/acre Cost Share incentive on eligible NK soybean purchases including the matching acres of one of the following eligible residual soybean herbicides: Prefix®, Sequence®, Boundary®, Flexstar® GT 3.5; or
  - \$6/acre Cost Share incentive on NK soybean purchases including the matching acres of one of the eligible residual soybean herbicides listed above and one of the following eligible fungicides: Quadris Top® SB or Quilt Xcel® and one of the following eligible insecticides; Endigo® ZC, or Besiege®
- Grower is only eligible for Cost Share incentive on matching acres (those acres for which all products are bought and applied to enrolled acres).

## General Conditions

- Established product rates set forth in the table below will be used to determine matching acres. Syngenta reserves the right to add/remove participating products.
- Syngenta reserves the right to reject claims that do not meet all conditions and requirements herein and reserves the right to audit any Grower or Retailer to confirm eligibility and payment level.
- Grower must purchase from an Authorized Syngenta Reseller.
- Orders for NK soybeans must be placed by no later than July 15, 2015
